ST-COPY

Program by Doug Olson

ST-Copy is a progam that allows the user to make backup copies of protected software. ST-Copy will make an exact copy of virtually all protected software, so the original can be stored away in safe keeping. Here are some features of ST-Copy:

- Full Disk Map displayed on screen.
- Copies "Bad Sectors" & "Extra Sectors".
- Multiple copies.
- Two modes of copy.

NOTICE!

This program is intended for backup purposes only. Selling or giving away copies of a copyrighted program is a violation of copyright law.
